

# PARTNER PROGRAM

Bring new users to the NiceHash platform and earn Bitcoin! If you are a registered company and can bring us many users each month or large amounts of hashpower, apply to be a partner in our referral program.

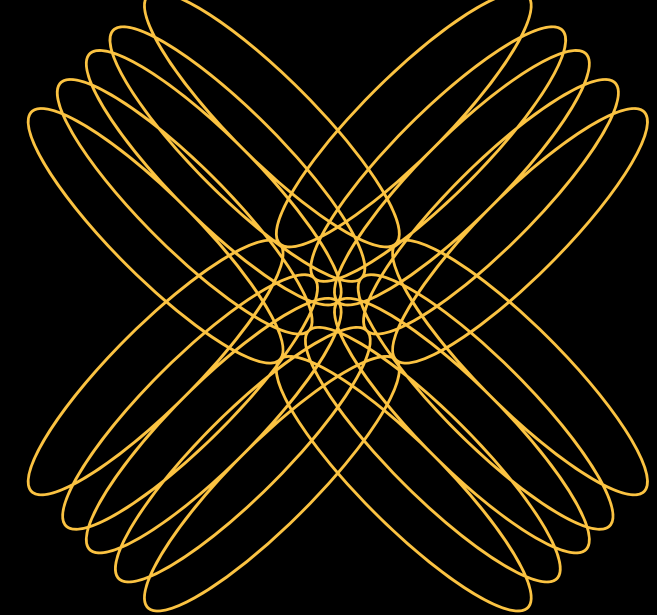

## EARN BTC FOR EVERY REFERRAL

When you refer a new user to NiceHash, they must start mining. At the end of the month, you invoice us for the number of miners you have brought. We verify the time they have been mining and pay you the percentage of the mining fees. The commission is paid in Bitcoin. Your commission is **15% of the mining fees**. This is a flat rate and applies to any number of miners you bring.

**This guide will show you how to apply**

 **STEP 1:**  
**SIGN UP AT NICEHASH**

Sign up as a NiceHash user. You can do this easily at:

[www.nicehash.com/my/register](http://www.nicehash.com/my/register)

You only need an email address to get started.

## STEP 2: COMPLETE KYC

Next verify your account using your ID card or Passport. You can do this easily at:

[www.nicehash.com/my/settings/limits](http://www.nicehash.com/my/settings/limits)

If you need help you can find a guide here:

[www.nicehash.com/support/general-help/kyc/how-to-successfully-complete-the-kyc-process](http://www.nicehash.com/support/general-help/kyc/how-to-successfully-complete-the-kyc-process)

## STEP 3: APPLY FOR PARTNER

Fill in the application form with your details, and our team will check your information.

[www.nicehash.com/mining-affiliate/apply](http://www.nicehash.com/mining-affiliate/apply)

Once complete, you will be contacted and asked to verify your business.

## STEP 4: COMPLETE KYB

Verify your business with us using a Certificate of Incorporation or similar company document. You can easily upload this in your dashboard here:

[www.nicehash.com/my/organization/referrals](http://www.nicehash.com/my/organization/referrals)

Once complete, you will be contacted and will receive an agreement to sign.

## STEP 5: SIGN AGREEMENT

Once verified, our legal team will send you the Partner Agreement to sign via DocuSign.

At the same time, you will receive the **referral code** ready to start using.

## STEP 6: PROMOTE NICEHASH

Now it's in your hands! All you have to do is bring as many users to NiceHash as possible to get the maximum commission.

You can promote us on your media channels or through your existing business, or however you chose. Our team can provide logos and branding for you to use if needed.

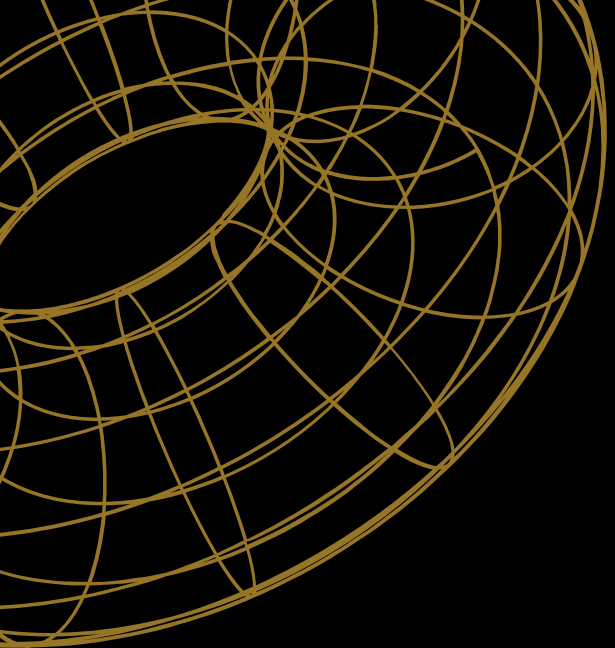

## STEP 7: EARN COMMISSION

At the end of each calendar month, you can generate and send us an invoice from your dashboard.

You will be paid out in **Bitcoin** for **15%** of the fees from all the miners who you referred to us.

# FULL TRANSPARENCY

You can always check how many miners you have referred inside your **dashboard**, giving you full control of your operations.

Bear in mind each miner has different hardware, so the number of miners does not necessarily mean more profits. What's important is **how much hashrate they provide us**, therefore earning you a higher fee.
